Ergonomic Mesh Office Chairs with Recline & Footrest

Product Specification Schedule

Selected chair package	Black high-back mesh recliner with mesh headrest, fabric seat, linkage arms and integrated telescopic/flip-over footrest.
Back, seat & footrest surfaces	Black mesh back; fabric seat and footrest
Published seat & overall heights	Diagram reference: seat 440-500 mm; overall height 1165-1225 mm. These are illustrated fit ranges, not an independently measured unit or a guarantee of suitability for every user.
Published width & desk references	Diagram reference: illustrated seat width 515 mm, outside arm span 645 mm, base width 695 mm, illustrated side-view span 640 mm; arm height 635-695 mm. No clear seat depth inferred.
Recline & footrest operation	Position-locking recline control, linkage arms and retractable flip-over padded footrest. Actual control, lock operation and deployed clearance identified for the ordered chair; no angle or load rating assumed.
Frame, filling & floor interface	Selected PP/fiber back frame, resilient molded seat foam and nylon base; gas lift and caster set identified for the actual chair and floor. Material grades, capacity and required test scope identified for the ordered configuration.
Assembly & workstation scope	Assembly state, supplied fasteners/instructions and local setup scope listed. Desk, devices, chair mat and stationary footrest separate; packed size and final delivery recorded independently.

Office-chair configuration

Black mesh-back recliner: Black mesh back; fabric seat and footrest

Mesh Office Chair Components & Separate Workstation Items

Selected reclining chair: Named black mesh-back configuration, fabric seat/footrest, headrest, linked arms, specified mechanism, gas lift, base and casters.

Materials & documentation: Actual mesh/fabric/foam and component specification. Any required test report identifies the proposed chair or component and its tested scope.

Assembly & desk setup: Supplied hardware/instructions; local assembly and setup individually listed. Desk, devices, floor mat and separate stationary footrest are separate purchases.

Packing & transport: Mesh/upholstery/control/base protection and packed-unit record; freight, destination charges, unloading and final delivery as separate quoted items.
