One-Piece Washdown Toilets

Product Specification Schedule

Model & body	WP-5004; one-piece ceramic toilet; floor-mounted installation.
Selected trap configuration	S-trap: 250 mm listed connection
Listed overall size	730 x 335 x 720 mm. Bowl, seat, fixing and connection dimensions belong to the fixture installation drawing.
Flush configuration	Washdown flush. A control with two flush selections is described for the model; actual flush volumes and required destination documentation are identified with the proposed flushing assembly.
Seat & cover	UF cover specified with the ceramic fixture. Seat profile, hinge fit and replacement-part reference matched to the ordered toilet.
Connection choices	Listed S-trap options: 250 mm or 300 mm; listed P-trap option: 180 mm. Outlet fitting, measurement points and installation clearances follow the matching model drawing.
Supply & installation	Water inlet position, thread, valve access, connector, seals and fixing components identified for the chosen version; local plumbing and installation separately scoped.

Toilet trap configuration

S-trap 250 mm: S-trap: 250 mm listed connection

S-trap 300 mm: S-trap: 300 mm listed connection

P-trap 180 mm: P-trap: 180 mm listed connection

Ceramic Toilet, Seat, Flush Fittings & Site Work

Toilet configuration: WP-5004 one-piece ceramic body with the selected S-trap or P-trap configuration, finish and quantity.

Seat & flush components: Matched seat and UF cover with named flush and inlet fittings, with any agreed spare seats, hinges or valves listed separately.

Connection & installation: Connector, seals and fixing components named when supplied; water-feed changes, drain alterations, fixing and local labor separately itemized.

Packing & delivery: Unit protection and shipment packing specified; freight, unloading, room delivery, removal of old fixtures and disposal separately priced when required.
