Crystal-Handle Single-Hole Bathroom Faucets

Product Specification Schedule

Model & faucet type	8801-11QH basin faucet; deck mounted with a fixed, non-swiveling spout.
Selected faucet height	286 mm overall faucet height; single-hole deck mounting, brass body and ceramic valve. Body finish and handle appearance identified for the order.
Body & handle	Brass body with one spherical crystal-style handle. Body finish and handle appearance are identified as separate order details.
Mounting configuration	One deck hole and one handle. Required hole diameter, deck thickness range and underside mounting space follow the selected faucet assembly.
Valve & water control	Included ceramic valve for single-handle hot and cold water control. Water-supply and connection requirements are specified for the ordered assembly.
Overall height references	Tall version: 286 mm overall. Short version: 199.8 mm overall on the drawing, listed as the 200 mm height choice. These are separate from spout outlet height and reach.
Included supply components	Faucet spout, mounting hardware, waterlines, valve and trim listed in the supply package. Drain assembly excluded; basin, waste and site installation separately scoped.

Bathroom faucet height

286 mm Tall: 286 mm overall faucet height; single-hole deck mounting, brass body and ceramic valve. Body finish and handle appearance identified for the order.

200 mm Short: 200 mm nominal height selection; 199.8 mm overall height on the short-version drawing. Single-hole deck mounting, brass body and ceramic valve; finish and handle appearance identified for the order.

Basin Faucet, Mounting Parts & Bathroom Connections

8801-11QH faucet: Selected 286 mm or nominal 200 mm height, body finish, handle appearance and room quantities.

Included fitting package: Faucet spout, mounting hardware, waterlines, ceramic valve and trim; connection sizes and any additional adapters identified for the installation.

Basin, drain & installation: Basin, drain assembly and waste connection separately selected. Deck preparation, plumbing connection and faucet installation separately scoped.

Packing & delivery: Protected handle and finished surfaces, separated small fitting packs, packing and delivery destination identified for the order.
