Black Hinged Alcove Shower Doors

Product Specification Schedule

Model & door type	SG05 shower door; hinged; mounting style listed as pivot/hinged; alcove installation.
Selected configuration	SG05 hinged alcove shower door in black, with a stainless steel frame and listed 8 mm tempered glass. Finished size, handing, hinge arrangement and seals are specified for the order.
Listed glass thickness	8 mm tempered glass as listed. Glass appearance, panel sizes, cutouts and any required compliance documentation are defined for the ordered assembly.
Frame & finish	Stainless steel frame; black finish family. Steel grade, finish treatment and the materials of individual hinges, handles and fixings are separately specified.
Door size & opening fit	Customized to the confirmed project configuration. Door width and height in mm, finished opening, wall conditions and threshold detail are order inputs. Workable dimensions are confirmed against the selected frame, glass and hardware.
Operation & clearance	Handing, hinge/pivot arrangement, permitted swing and clear opening defined for the actual door package and bathroom layout.
Support, seals & documentation	Supporting structure, fixing parts, frame interfaces, seals, threshold and required glass/hardware evidence specified for the selected assembly and installation.

Shower door configuration

Black: SG05 hinged alcove shower door in black, with a stainless steel frame and listed 8 mm tempered glass. Finished size, handing, hinge arrangement and seals are specified for the order.

Shower Glass, Frame, Hardware & Site Work

SG05 door assembly: Black hinged alcove configuration with listed 8 mm tempered glass and stainless steel frame, sized and allocated by opening.

Hinges, handles & seals: Actual hinge/pivot package, handles, frame components, fixings and seals itemized against the ordered door configuration.

Bathroom site work: Opening preparation, structural support, waterproofing, threshold and installation separately scoped; shower base, plumbing fittings and tiles remain separate products.

Packing & delivery: Protected glass edges, identified frame and fitting packs, opening references, packing quantities and delivery destination specified for the order.
