Wall-Mounted Bathroom Hardware Package with Towel Bar

Product Specification Schedule

Package configuration	Coordinated project supply of one selected towel bar, HDP-25201 hook, HDP-25202 paper holder and HDP-25203 soap dish per scheduled room; not a factory-boxed kit.
Room package scope	One selected wall-mounted towel bar plus HDP-25201 hook, HDP-25202 paper holder and HDP-25203 soap dish; quantities, actual finish and individual dimensions scheduled per room.
HDP accessory materials	HDP-25201 clothes/robe hook, HDP-25202 paper holder and HDP-25203 soap dish: 304 stainless steel. Finish and each component's dimensions recorded separately.
Towel-bar specification	Stainless steel bar; exact reference and grade, overall/usable length, bracket centers and wall projection in mm confirmed for the selected bar.
Wall mounting	Individual fitting footprint, fastener pattern, substrate/backing and wet-area sealing detail coordinated with the installer; no universal anchor spacing or load rating.
Finish and service details	Actual surface reference, sheen and accepted match per item; tray/removal method and any spare or replaceable parts identified where supplied.
Quantities and receiving	Item count by room type, supplied mounting parts, protected packing and destination; consumables and local installation separate.

Bathroom hardware room package

Towel Bar + Three Accessories: One selected wall-mounted towel bar plus HDP-25201 hook, HDP-25202 paper holder and HDP-25203 soap dish; quantities, actual finish and individual dimensions scheduled per room.

Bathroom Accessory Components & Separate Installation Items

Four accessory types: Selected towel bar, HDP-25201 robe hook, HDP-25202 paper holder and HDP-25203 soap dish, with actual counts per room.

Material and finish references: Three HDP items listed 304 stainless; towel-bar grade and selected surface references confirmed individually, including accepted sample matching.

Fixing and service parts: Mounting hardware and agreed replacement parts itemized; wall backing, anchors and waterproof sealing assigned to the actual substrate detail.

Shipment and site work: Protected packing, room/item labels and destination-based freight; local drilling/fitting and consumable towels, soap and tissue separate.
