Warm Beige Ceramic Bullnose Wall Tile Trim

Product Specification Schedule

Selected body	Satin-glazed ceramic bullnose; 8mm catalog ceramic configuration, separate from porcelain tiers
Selected glaze	Warm beige satin-glazed ceramic bullnose, using the catalog 8mm ceramic-body configuration. Face format, rounded-edge direction, radius, corner pieces and field-tile match are selected for the layout.
Catalog face formats	75 x 300mm, 100 x 300mm or 100 x 400mm common choices; actual format and edge direction stated on order
Rounded-edge geometry	Typical catalog radius R6-R10mm; single bullnose, double bullnose and outside corners selected for their actual positions
Field tile coordination	Actual tile series, body thickness, glaze reference, joint and finished adhesive-bed relationship
Application scope	Wall ends, niches, shower/bath-surround edges and coordinated bathroom wall details; actual wet-area assembly specified separately
Quantity unit	Straight trim and special pieces counted by actual format and edge direction; field tile area and site work separate

Ceramic bullnose finish

Warm Beige / Satin Glaze: Warm beige satin-glazed ceramic bullnose, using the catalog 8mm ceramic-body configuration. Face format, rounded-edge direction, radius, corner pieces and field-tile match are selected for the layout.

Ceramic Bullnose, Corner Pieces & Field Tile Scope

Straight bullnose: Selected 8mm ceramic body, actual face format, rounded side and warm beige satin glaze.

Corners & ends: Selected corner, double-edge, stop or cut pieces identified by their positions and quantities.

Coordinated finishes: Matching field tile and grout where included; actual series, thickness and finish reference.

Packing & delivery: Pieces by format/edge, agreed spares, rounded-edge protection, destination and receiving arrangements.
