Stainless Steel Outdoor Kitchen Cabinets with Raised Bases

Product Specification Schedule

Cabinet construction	Stainless steel cabinet bodies with brushed formed stainless fronts; separate sink, drawer-storage and grill modules
Configuration options	304 stainless steel cabinet body with brushed stainless fronts, 2-3 mm formed door panels and raised base clearance. Front and hardware grades are itemized separately.; 316 stainless steel cabinet body for a separately assessed higher-chloride site, with brushed stainless fronts and the same module layout. Matching 316 hardware is a separate selection.
Formed fronts	2-3 mm stainless steel door panels with internal reinforcement; front metal grade and finish separately itemized
Hardware choices	304 stainless hinges, drawer slides and fasteners; 316 hardware and soft-close operation available as separate selections
Worktop choices	30 mm granite or 20 mm sintered stone with separately scheduled edges, joints, cutouts and support
Module dimensions	Actual cabinet widths, depths and heights in mm; sink and grill cutouts and service clearances follow the selected equipment
Outdoor interface	Raised bases, drainage and ventilation paths; body/front/hardware grades selected for exposure and cleaning access, without a universal corrosion guarantee

Stainless cabinet body grade

304 Stainless Body / Brushed Fronts: 304 stainless steel cabinet body with brushed stainless fronts, 2-3 mm formed door panels and raised base clearance. Front and hardware grades are itemized separately.

316 Stainless Body / Brushed Fronts: 316 stainless steel cabinet body for a separately assessed higher-chloride site, with brushed stainless fronts and the same module layout. Matching 316 hardware is a separate selection.

Stainless Bodies, Fronts, Hardware & Outdoor Equipment Scope

Stainless cabinet run: Selected 304 or 316 bodies, formed fronts with identified grade, modules and exposed end/back details.

Hardware & worktops: Hinges, slides, fasteners and any soft-close items; granite or sintered stone, edges, cutouts and supports.

Equipment & connections: Grill, sink and faucet only when itemized; local gas, power, plumbing and fixing work separately defined.

Packing & receiving: Protected brushed faces, module/stone identification and destination-based delivery and unloading arrangements.
