Open-Channel Waterfall Basin Faucet with a Metal Trough

Product Specification Schedule

Faucet type	Deck-mounted waterfall basin faucet with an open metal trough and one top lever
Selected configuration	Brass channel-spout offer with a metal trough, a deck-mounted body and one manual top lever; polished metal appearance.
Spout material & form	Brass channel-spout offer; selected exposed metal trough with a broad outlet edge, not a tempered-glass channel
Operating control	One manual top lever; lever travel and backsplash clearance considered with the mounting position
Dimensional schedule	Overall height, deck-to-outlet height, mounting-center-to-outlet reach and base footprint in mm
Basin & deck interface	Basin rim/bowl position, actual deck thickness, fixing access and underside obstructions scheduled together
Plumbing package	Actual hot/cold connections, cartridge, fixing and any supplied hoses itemized; flow/pressure and destination documentation selected for the project

Selected waterfall faucet configuration

Metal Trough / Single Top Lever: Brass channel-spout offer with a metal trough, a deck-mounted body and one manual top lever; polished metal appearance.

Waterfall Faucet, Fixing Parts & Separate Basin Plumbing

Faucet assembly: Metal-trough body, single top lever and selected surface; glass and LED variants excluded from this selection.

Fitting interface: Actual mounting dimensions, fixing set, deck thickness and supply-connection parts as itemized.

Separate plumbing: Basin, waste, trap, supply stops and additional temperature-limiting parts separately identified.

Order & receiving: Quantity, matching surface reference, protective packing, destination and local fitting scope.
