316 Stainless Steel High-Arc Pull-Down Kitchen Faucet

Product Specification Schedule

Selected fixture	Deck-mounted standard high-arc kitchen faucet with removable pull-down head and manual side lever
Body & surface	Satin-finish 316 stainless body; standard curved spout with magnetically docked pull-down head and manual side lever.
Body material	316 stainless steel body; cartridge, hose, seals and spray-head internal materials specified separately
Head & docking	Pull-down head with magnetic dock; standard arc without exposed pre-rinse coil
Fit dimensions	Overall height H, docked outlet height Ho, horizontal reach R, base footprint and lever operating clearance in mm
Deck & moving hose	Actual drilling pattern/diameter and deck thickness T in mm; hose travel, return arrangement and under-sink clearance matched to layout
Water & service parts	Connection standard, outlet/control package, flow at its stated pressure and required local documentation; matched head, hose, connector and valve references

Kitchen faucet configuration

316 Body / Standard High Arc / Pull-Down Head: Satin-finish 316 stainless body; standard curved spout with magnetically docked pull-down head and manual side lever.

Pull-Down Faucet, Mounting Parts & Separate Kitchen Work

Selected faucet: 316 body, standard-arc spout, pull-down head, magnetic dock, manual side lever and satin surface.

Working parts: Matched hose, return arrangement, connectors, head and control package listed for the supplied assembly.

Mounting interface: Actual deck fixings, prepared opening and countertop/sink thickness; extra cover plate or connection parts separately listed.

Separate project work: Sink, countertop preparation, plumbing rough-in, local fitting and cabinet changes unless included.
