Low Media Console with Synthetic-Leather Panels and Open Niches

Product Specification Schedule

Console configuration	Low console with two broad rounded end fronts, four central open niches, two visible tray inserts and a low dark base.
Selected material package	Pale synthetic saddle-microfiber end panels, brown tray accents, an MDF body and a black-titanium-plated stainless-steel base frame. Selected project layout: 2000 W x 400 D x 440 H mm.
Body and cover	Medium-density fiberboard with synthetic saddle microfiber; panel sections, covering allocation and edge stitching individually specified.
Selected project layout	2000 W x 400 D x 440 H mm outside envelope; final openings and tray dimensions follow the cabinet drawing.
Base frame	Black-titanium-plated stainless steel; component connections and floor-contact pieces separately scheduled.
Interior fittings	Open niche grid and tray inserts; end-front access, insert attachment and any requested moving fittings separately specified.
Equipment and delivery	Device fit, cable routes, heat clearance, quantity, packing, receiving and local-work scope coordinated with the room.

Pale and Brown Surface Package

Pale Wrapped Ends & Brown Tray Accents: Pale synthetic saddle-microfiber end panels, brown tray accents, an MDF body and a black-titanium-plated stainless-steel base frame. Selected project layout: 2000 W x 400 D x 440 H mm.

Synthetic-Leather Media Console Supply Scope

Console assembly: Selected body, wrapped end panels, open center niches, tray inserts and specified base frame.

Material package: MDF panel build, synthetic covering references, pale and brown finishes, stitched edges and black-titanium base finish.

Room interfaces: Selected 2000 W x 400 D x 440 H mm layout, final equipment openings, cable routing and any agreed restraint details.

Separate items and work: Packing, freight, destination handling and agreed local work itemized; equipment and decorative objects separate.
