600 × 1200 mm Matte Parquet Wood-Look Floor Tile

A large-format tile printed with pale cream and blond parquet blocks in several grain directions. Each 600 × 1200 mm tile carries a section of the parquet pattern, so a floor reads as wood parquet without laying individual strips.

Specifications

Tile size	600 × 1200 mm
Surface	Matte
Thickness	10 mm
Color	Pale cream-beige with blond wood tones
Pattern	Block parquet, multi-directional grain
Series	Chevron & Parquet

Minimum order	Supplied in full packing units from one production batch, rounded up from your area. Small lots can ship with the rest of your project list in one container.
Standards & certificates	Tell us the standards or certificates your market or project requires, and we confirm in writing which documents are available for this configuration before you order.

How We Quote This Tile

Priced per m²
We quote by the square meter and round up to full cartons, with a cutting allowance added to your room areas.

One production batch
Each order is packed from one production batch, so shade and pattern match across all cartons.

Matching series
Chevron designs from the same series can be quoted in the same order for adjoining rooms.

Packing
Tiles ship in cartons on pallets. The quotation lists pieces per carton, m² per carton and pallet weight.
