Dawn Aurora Translucent Sintered Stone Slab

A translucent sintered stone in golden amber, cream and smoky grey that glows when lit from behind. Dawn Aurora comes in 1600 × 3200 × 12 mm glossy slabs with three design faces, for backlit walls, bar fronts and reception features.

Specifications

Slab size	1600 × 3200 mm
Finish	Glossy
Thickness	12 mm
Material	Translucent sintered stone
Colors	Golden amber, cream, smoky grey
Series	Luxury Stone
Design faces	3
Minimum order	Quoted per model at your project quantity. Where a factory model has a production minimum, the quotation states it; small quantities can ship with the rest of your project in one container.
Standards & certificates	Tell us the standards or certificates your market or project requires, and we confirm in writing which documents are available for this configuration before you order.

How We Quote Dawn Aurora

Full slabs or cut pieces
We quote full 1600 × 3200 mm slabs, or cut-to-size pieces from your shop drawings for bar fronts, walls and vanity tops.

Face and sequence
For multi-slab features, the quotation lists each slab and its face, so the layout is fixed before cutting.

With other stone
Opaque sintered stone or tile for the rest of the room can be quoted in the same order.

Packing
Slabs ship in wooden crates; the quotation states the packed weight.
