Minimum order	Supplied in full packing units from one production batch, rounded up from your area. Small lots can ship with the rest of your project list in one container.
Standards & certificates	Tell us the standards or certificates your market or project requires, and we confirm in writing which documents are available for this configuration before you order.

How We Quote This Flooring

Priced per m²
We quote by the square meter and round up to full cartons, with a cutting allowance added.

Confirmed build
The quotation states overall thickness, top-layer thickness, wood species, surface finish and joint profile.

Trims and stairs
Skirting, thresholds and stair nosings in a matching tone can be quoted in the same order.

Packing
Boards ship in sealed cartons on pallets; the quotation lists m² per carton.

What to Send for a Quote
