Arched Aluminum and Clear Glass Entry Door

A tall single entry door with a slim black aluminum frame, a full arched top and clear glass divided by fine bars. The large glass area brings daylight into the hall, and each door is made to the shape of your opening.

Specifications

Door type	Single entry door
Frame	Slim black aluminum
Material	Aluminum alloy and glass
Top profile	Full arch
Glass	Clear, divided by fine bars
Style	Tall, narrow proportion
Size	Made to each opening
Minimum order	Made to your project quantities. Small item counts are accepted when they ship with the rest of your project list; the quotation confirms the quantity for each item.
Standards & certificates	Tell us the standards or certificates your market or project requires, and we confirm in writing which documents are available for this configuration before you order.

How We Quote This Door

Made to the opening
Each door is quoted to its arched opening, with frame, glass and hardware.

Glass build
Glass type and thickness are confirmed per project: tempered, laminated, insulated, clear or obscured.

Hardware
Lock, handle and hinges are listed on the quotation according to your choice.

Packing
Each door is packed and protected for export, with the glass secured for transport.

What to Send for a Quote

Opening
