788 Floating Bathroom Vanity with Lighted Mirror

A wall-mounted vanity with ribbed drawer fronts, an open shelf bay and a sintered-stone top with an integrated basin and concealed drain. The 788 comes in 800, 900, 1000 and 1200 mm widths, each 550 mm deep, with a matching lighted mirror.

Specifications

Model	788
Cabinet	Oak and solid wood
Widths	800, 900, 1000 or 1200 mm
Depth	550 mm
Mounting	Wall-mounted (floating)
Top and basin	Sintered stone, integrated basin, concealed drain
Mirror	Lighted mirror with open shelves
Minimum order	Quoted per model at your project quantity. Where a factory model has a production minimum, the quotation states it; small quantities can ship with the rest of your project in one container.
Standards & certificates	Tell us the standards or certificates your market or project requires, and we confirm in writing which documents are available for this configuration before you order.

How We Quote the 788

Priced per set
One set is the cabinet, the sintered-stone top with integrated basin and the lighted mirror, for the width you choose.

Mixed widths
One order can combine several widths. We list each width and its quantity on the same quotation.

Mixers and fittings
Basin mixers, wastes and fixing hardware are priced as their own lines, matched to the basin.

Packing
Cabinet, top and mirror are packed individually and labeled as one set.
