Glossy Burgundy Breccia-Look Sintered Stone Slab

A glossy off-white sintered stone with bold burgundy-brown fragments in a breccia pattern. The 1600 × 3200 × 12 mm slabs come in four design faces for kitchen islands, feature walls, vanities and reception desks.

Specifications

Slab size	1600 × 3200 mm
Finish	Reflective gloss
Thickness	12 mm
Material	Sintered stone
Colors	Off-white ground, burgundy-brown veining
Series	Luxury Stone
Design faces	4
Minimum order	Quoted per model at your project quantity. Where a factory model has a production minimum, the quotation states it; small quantities can ship with the rest of your project in one container.
Standards & certificates	Tell us the standards or certificates your market or project requires, and we confirm in writing which documents are available for this configuration before you order.

How We Quote This Sintered Stone

Full slabs or fabricated pieces
We quote full slabs, or cut-to-size tops, waterfall ends and wall panels made from your shop drawings.

Slab sequence
For continuous patterns, the quotation notes each slab and its face, so the layout is fixed before cutting.

Kitchen package
Cabinets, sinks and mixers for the same kitchen can be quoted with the stone, so cut-outs match.

Packing
Slabs and finished pieces ship in wooden crates; the quotation states the packed weight.
