Microfiber-Top Dining Table with Trestle Supports

Product Specification Schedule

Table configuration	Long rectangular upholstered dining top over two separate wood trestles with tapered, splayed legs.
Top and supports	Multilayer wood-panel top with microfiber saddle-leather upholstery; separate wood trestle supports and water-based lacquer finish.
Selected metric size	2000 mm L x 800 mm W x 750 mm H, adopted procurement layout basis; manufactured dimensions by accepted order drawing.
Surface schedule	Microfiber covering color, grain appearance, seam color, stitched divisions and perimeter wrap scheduled as one top assembly.
Chair-space allowance	Selected 600 mm pullback on all edges gives 3200 x 2000 mm planning space. Actual chairs, trestles and circulation govern final layout.
Wood and connections	Water-based lacquer on wood components; component species, top thickness, support spread and attachment points identified by order drawing.
Supply scope	Top, two trestles, agreed hardware and finish. Chairs, packing, freight, unloading and site assembly separately scheduled.

Table construction

Microfiber top / wood trestles: Multilayer wood-panel top with microfiber saddle-leather upholstery; separate wood trestle supports and water-based lacquer finish.

Microfiber-Top Table Quote Schedule
