Blue & White Square Glass Pool Mosaic Tiles

Product Specification Schedule

Product configuration	Selected custom wall/waterline finish: square glass mosaic in blue, teal and white; 11 x 11 chips per face-paper-mounted module.
Selected blend	Specified blue, teal and white square glass mosaic: 25 x 25 x 4 mm chips, 2 mm design joints and an 11 x 11 face-paper-mounted module. Pool-wall and waterline use requires a compatible submerged setting system; floor and step use is separate.
Chip dimensions	Selected chip target: 25 x 25 mm face x 4 mm thickness; 2 mm design joints, giving 27 mm chip pitch.
Module & coverage	121 chips/module; outside chip envelope 295 x 295 mm; installed repeat 297 x 297 mm including the intermodule joint; calculated repeat coverage 0.088209 m2/module. Carton count by accepted packing schedule.
Mounting & setting	Selected face-paper mounting; exposed glass backs for setting. Actual glass, mounting release, adhesive, grout and waterproofing require coordinated submerged-use acceptance; no rear-mesh or tested-bond claim.
Application scope	Selected use: vertical pool walls and waterlines. Curved geometry by setting-out detail; walkable floors, steps and bench tops require separate use/slip classification.
Supply quantity	Field area, borders/detail pieces, cuts and agreed spares itemized; pool shell, waterproofing and site work identified separately

Glass pool mosaic blend

Blue / Teal / White Squares: Specified blue, teal and white square glass mosaic: 25 x 25 x 4 mm chips, 2 mm design joints and an 11 x 11 face-paper-mounted module. Pool-wall and waterline use requires a compatible submerged setting system; floor and step use is separate.

Glass Mosaic, Detail Pieces & Pool Finish Scope

Glass mosaic: 25 x 25 x 4 mm blue/teal/white glass chips, 2 mm joints, 11 x 11 face-paper module as the selected order basis.

Detail pieces: Agreed borders, corners, edge treatments and other separately selected components.

Setting materials: Compatible adhesive and grout where included; waterproof substrate, movement joints and installation scope separately identified.

Quantity & packing: Modules per box, total supplied area, selected batch, agreed spares and destination receiving arrangements.
