Memory Foam & Pocket Spring Hybrid Mattress

Product Specification Schedule

Mattress construction	Specified custom Queen hybrid: memory-foam comfort layer above a zoned pocket-spring core and base foam; mattress only.
Configuration options	Specified Queen 1524 x 2032 mm hybrid with a 260 mm height target and a soft comfort preference. Selected stack: 50 mm memory foam, 180 mm pocket springs, 20 mm base foam and 10 mm combined cover/quilt allowance. Feel acceptance uses the agreed sample/build reference.; Specified Queen 1524 x 2032 mm hybrid with a 260 mm height target and a medium comfort preference. Selected stack: 50 mm memory foam, 180 mm pocket springs, 20 mm base foam and 10 mm combined cover/quilt allowance. Feel acceptance uses the agreed sample/build reference.; Specified Queen 1524 x 2032 mm hybrid with a 260 mm height target and a firm comfort preference. Selected stack: 50 mm memory foam, 180 mm pocket springs, 20 mm base foam and 10 mm combined cover/quilt allowance. Feel acceptance uses the agreed sample/build reference
Ordered dimensions	Selected U.S. Queen size: 1524 W x 2032 L mm (60 x 80 in); finished-height target 260 mm. Accepted manufacturing tolerances recorded with the order.
Foam & spring details	Selected stack targets: 50 mm memory foam + 180 mm pocket-spring core + 20 mm base foam + 10 mm combined cover/quilt allowance = 260 mm. Foam grades, spring details and feel reference separately specified.
Cover construction	Light fabric top and plain gray border; composition, seam construction and care instructions by accepted cover specification. No default removable/washable-cover claim.
Base compatibility	Selected interface: level continuous platform sized for 1524 x 2032 mm mattress. Bed/base separate; slatted and adjustable arrangements require a revised compatible support detail.
Packing & documents	Actual packing method, packed dimensions and handling instructions; required documents matched to the actual mattress and component scope
