Custom Hotel Duvet Covers

Product Specification Schedule

Selected cover construction	White cotton duvet-cover shell; matching front/back fabric, square corners and plain stitched edges; cover only
Specified configuration	Specified white 100% cotton, 200-thread-count plain-weave shell; 96 in W x 94 in L before laundering, with two matching faces, square corners and a bottom envelope closure with sewn side returns. Duvet insert and other linen pieces separate.
Specified textile	100% cotton; 1/1 plain weave; 200-thread-count procurement target, stated as combined warp and filling yarns per square inch
Finished queen cover size	96 in width x 94 in length before laundering (2438.4 x 2387.6 mm); dimensions describe the closed cover body
Envelope opening	Foot-end envelope fold with sewn-in side returns; no buttons, zipper, hook-and-loop tape, corner ties, hand slots or decorative bands in this selected construction
Insert-fit & room schedule	Nominal 96 x 94 in insert fit basis; insert specified separately. Covers, room-type counts and requested rotation/spare quantities each retain their own references.
Supplied scope & care	Cotton cover shell and named fabrication; duvet inserts, sheets, pillowcases and freight separately itemized. Care instructions and any required post-laundry size are recorded for the selected textile.

Specified cotton duvet cover
